Match Conflicts

In the case of a possible over-lapping schedule, if a conflict arises, the player should notify the tournament desk. Also, players should be tolerant that a match may be held or rescheduled due to conflicts and both players will be notified of the change.

Forfeit Procedure

If the assigned table is available at the time the match is scheduled to start AND no opponent is present, the player shall call a referee to the table. The referee will verbally callout the missing player's name to verify they are not present and then write down the time. At this point the missing player will be put on a 15 minute clock, and will forfeit the match if they are not there in time. Present player will have to call the referee back to the table after 15 minutes to finalize the forfeit process.

If the assigned table is not available at the time the match is scheduled to start, the player must wait until the current match in progress finishes before calling the ref to the table.

It is the player's responsibility to know the rules of play and play times and tables. Our staff will always be happy to assist you in locating your matches on the brackets if you should need it.

Disruption of Play

In the event that there is a disruption that causes play to stop (i.e. power outages), all players must check in with the tournament desk before leaving to receive information regarding any rescheduling that may need to be made.

It's the responsibility of the players to know when their match times are, and to be on time.
